

REASONS TO BUY – Best Practice Publishing

The screenshot shows the 'General' tab of the HEMS Enterprise configuration window. It is divided into two main sections: 'Best Practices (BP)' and 'Approval Process (AP)'.
Best Practices (BP) - Standardized Lists: A list of items with checkboxes, including Equipment Type, Manufacturer / Supplier, Equipment Model, Device Inclusion, Parts, Work Order Priorities, Work Order Type, Work Order Status, Work Codes, and Subcodes. Below this is a section for 'BP - Functions & Processes' with checkboxes for Procedures, Risk, and Approval Process.
Approval Process (AP): A list of items with checkboxes and radio buttons for 'Global' and 'Local' settings. The items include Equipment, Equipment Type, Manufacturer / Supplier, Equipment Model, Device Inclusion, Procedures, Parts, Work Order Priorities, Work Order Type, Work Order Status, Work Codes, and Subcodes.

Define your Best Practices and Standardize Lists across department and/or across the corporation.

Let HEMS Enterprise enforce the compliance, while you bask in the glory.

The screenshot shows the 'Approval Process' window. On the left is a tree view of the organizational structure, including 'CENTRAL VERMONT MED CENTER' and various departments like 'Vendors (3)', 'Equipment Type (1)', and 'FAHC - ALL CAMPUSES'. A specific model 'G-AIO-00-05 - DATEX OHMEDA - MULTIPLE MED GAS MONITOR - admin' is selected.
 On the right is a 'Similar Items' list, currently empty. Below the tree view is a table of 'Equipment Models' with columns for 'g-a', 'Manufacturer', and 'EQ Type'.
 At the bottom is a 'Model Details' form for the selected model 'G-AIO-00-05'. The form includes fields for Number, Description, EQ Type, Manufacturer, Incoming Inspection, ECRI Number, and Notes. The 'Active' checkbox is checked.

g-a	Manufacturer	EQ Type
