

REASONS TO BUY – Equipment Approval Process

Approve equipment before it enters your Equipment Inventory

Keep track of and standardize information including equipment type, model, depreciation, device inclusion, manufacturer, model, and price.

Set it once and HEMS Enterprise manages it 24/7 – 365 days a year. Automatically assign the required PM and Risk with one click.

Whether equipment is entered from the Web or from your desktop it will always have the right information

No more endlessly searching for a Air Hand or Air Handler. With HEMS Enterprise standardization and Best Practices enforced, it is always here for you, 24/7.

Make more time for your kids, golf game or local charity — HEMS Enterprise will make sure your operational plan continues.

EQ2 - enterprise wide, enterprise smart, ready for your enterprise 24/7
